Respiratory Compromise = Respiratory insufficiency, arrest and failure.

### Common
- Nearly 30% of post-operative patients and up to 7% of all Medicare patients will suffer from respiratory compromise.

### Costly

### Deadly
- Patients with respiratory compromise that originated on the general care floor will be in the hospital 7 days longer and in the ICU almost 3 days longer.

### CASES OF RESPIRATORY COMPROMISE ARE EXPECTED TO INCREASE BY 31% BY 2019
