FAST FIBROID RESECTION\textsuperscript{1} WITH LITTLE-TO-NO DILATION.

TruClear™ ULTRA Mini Tissue Removal Device
DILATE LESS
RESECT MORE

Cervical dilation is the primary risk associated with hysteroscopy. Why risk it? The TruClear™ ULTRA Mini device offers fast fibroid resection with little-to-no dilation.

The 5 mm Solution to Fibroid Resection
- Resects tissue at an average of 4.4 grams/minute to give you best-in-class resection
- Resects tissue at an average of more than 35 percent faster and requires less dilation when compared to the leading competitive device
- Minimizes or eliminates dilation due to its smaller size
- Is designed to reduce cervical trauma with the slanted distal tip; ideal for stenotic patients
- Can be used with the TruClear™ 5C or 5.0 hysteroscope sets

The One-Scope Solution for See-and-Treat Procedures
- A single insertion for diagnostic and operative procedures
- No need to switch scopes
- No need to dilate up

The Simple Solution for In-Office Myomectomies
- Allows you to complete myomectomies in the office with little-to-no dilation
- Enhances the TruClear™ system office-based portfolio

The TruClear™ system is manufactured by Smith & Nephew and distributed exclusively by Medtronic. For more information, visit sntrucleral.com.
