There's a growing need for less-invasive airway-management options for short-term use.

OUR SOLUTION
Clinician-inspired Shiley™ Laryngeal Mask.

The Laryngeal Mask is a supraglottic airway device that is designed for achieving and maintaining airway management in two main areas of care.
- Outpatient surgical procedures requiring positive pressure ventilation
- Emergency airway management

As one of the most trusted names in the industry, Medtronic offers a full line of proven airway management options. Our comprehensive portfolio includes basic and specialty endotracheal tubes, tracheostomy tubes, and now the Shiley™ Laryngeal Mask.

FEATURES FOR PATIENTS AND CARE PROVIDERS
For patients, the Shiley™ Laryngeal Mask offers advantages including:
- Easy-to-insert, contoured tube
- Non-traumatic soft cuff
- Disposable, sterile, single-use devices
- Latex-free
- Non-DEHP

For care providers, the Shiley™ Laryngeal Mask offers advantages including:
- Integrated cuff-inflation line
- Anatomically shaped clear tube
- Easy-to-read insertion markings
- Soft rounded tip for easy insertion
- Full range of sizes from pediatric to adult
- Durable PVC design
**SHILEY™ LARYNGEAL MASK**

**Integrated inflation line**
Reduces risk of “losing” inflation line in patient’s mouth

**Depth markings**
For accurate placement

**Pilot balloon**

**Non traumatic soft cuff**
