

# PREPARE FOR TOMORROW. HELP REDUCE CAUTI RISK.

## CAUTI Education Program

Reducing the risk of catheter-associated urinary tract infections (CAUTIs) is important to your facility. But you may not have the tools to get there. We can help.

We worked with CAUTI teams across the nation to develop our urology education and CAUTI surveillance program.

Project CAUTI is intended to help reduce the risk of CAUTIs with:

- Catheter insertion training
- Catheter maintenance
- Alternative noninvasive methods

Project CAUTI — Foley education and surveillance program. Designed for real-life situations.

Dover™ Silicone  
Urine Meter Tray

### Online training tools

#### Clinical solutions website

[medtronic.com/covidien/clinical-solutions](https://www.medtronic.com/covidien/clinical-solutions)

- Consolidated resource to access value-add materials for all our medical supplies

#### Dover™ collection systems interactive training

[doverurologytraining.com](https://www.doverurologytraining.com)

- Virtual in-service training on Dover™ collection systems

#### Catheter insertion video

[medtronic.com/covidien/products](https://www.medtronic.com/covidien/products)

- Details catheter insertion on both male and female anatomy

#### CE programs

[rnbestpractice.com](https://www.rnbestpractice.com)

- Accredited CE education for a wide variety of healthcare topics, including CAUTI

## CAUTI clinical support

### Product implementation and training program

Designed for smooth integration and long-term success of Dover™ urology products into clinical practices.

#### We provide:

- Local representation for product training
- List of facilities participating staff members
- Online educational support
- Clinical team to assist with education, including CEs

#### Your facility provides:

- A contact
- Meeting place
- Time for training

#### Added value:

Manufacturer support for product use

### CAUTI surveillance and Foley removal program

Helps your facility implement the CDC guidelines for CAUTI prevention.

#### We provide:

- Worksheet for Foley maintenance audits
- Local representation to support the program
- Report with aggregated audit results
- Suggested educational initiatives to improve performance

#### Your facility provides:

- A contact to champion the program
- Designated “superusers” to drive education initiatives

#### Added value:

CAUTI awareness and customized education plan
