#### **Prevention is the key to good long-term oral health**

Access to regular checkups and sound preventive care are key to long-term oral health. In addition to visiting your dentist for regular preventive care, talk to your dentist about your specific oral health needs. Your dental plan is intended only to help you pay for care—your dentist is the one who will help you determine your actual care needs.

#### **Helpful Online Tools**

As part of our commitment to your long-term oral health, we provide members free access to valuable oral health information and dental benefit tools through our Web site, [www.deltadentalmn.org](http://www.deltadentalmn.org).

#### **Providers**

You can choose any dentist you wish. The advantage of seeing a participating provider in the Delta Dental PPO or Delta Dental Premier network is to minimize your out-of-pocket expenses. In addition, the participating dentists agree to submit the claim forms directly to Delta Dental. The provider information is available at [www.deltadentalmn.org](http://www.deltadentalmn.org)
