

Medtronic

Connect, and gain efficiency.

EMR Connect offers comprehensive service to connect key devices to your EMR. We'll assess your device EMR connectivity needs, followed by a statement of work that outlines our complete connectivity service recommendation – customized for your facility.

EMR Connect empowers clinicians and hospital administration with:

- Fast, easy access to data in one place
- Enhanced and standardized clinical workflow
- Reduction in manual charting
- Streamlined reimbursement administration and an opportunity to improve accuracy and decrease errors

EMR Connect service applies to:

- RespArray™ patient monitors
- Capnostream™ 20p bedside monitors
- Capnostream™ 35 portable respiratory monitors
- Nellcor™ pulse oximetry PM1000N monitors
- INVOS™ 5100C and 7100 regional oximetry monitors
- BIS™ Complete anesthesia monitors
- Puritan Bennett™ 980 ventilator
- Puritan Bennett™ 840 ventilator
- Philips™ V60 ventilators

Keep connectivity uninterrupted and functioning at peak performance.

The Connection Service Plan[†] offers convenient remote support activities. This helps ensure the optimal function of the data moving from your devices to your EMR. The annual support plan includes:

- Firmware updates
- Network changes
- Connectivity maintenance and support
- Hardware appliance updates and issue mitigation, where applicable

To learn more about these services, please contact your local Medtronic sales representative.

[†]A Connection Service Plan is required for third-party devices and all Medtronic devices with EMR Connect service.
