

**FREEDOM
AND SAFETY.^{1,2}**

GET THE
PERFORMANCE
YOU WANT.
EVACUATE
THE SMOKE
YOU DON'T.

Sonicision™ Curved Jaw Cordless
Ultrasonic Dissection Device and
Valleylab™ Laparoscopic Smoke
Evacuation System

Medtronic
Further, Together

We continue to live and work in unprecedented times.

Our goal is to partner with you to help you focus on the things that matter most — like your patients, and the health and safety of your OR.

With an array of innovative devices, we can provide both flexibility and safety^{1,2} in your OR to help you achieve greater outcomes.

Our Sonicision™ curved jaw cordless ultrasonic dissection device offers cordless freedom of movement, precise energy dissection, and the versatility and performance that you expect.

To address surgical plume, our Valleylab™ laparoscopic smoke evacuation system removes and filters the surgical smoke for better visualization^{3,†} and air quality^{2,§} during laparoscopic procedures.

Two solutions combined to help enable your success.

†10 of 10 surgeons and nurses surveyed after use agreed for active mode, the device improved visualization vs. nonevacuation.

‡8 out of 9 surgeons and nurses surveyed after use agreed for passive mode.

§As compared with non ULPA filtration or nonevacuation.

TWO INNOVATIVE SOLUTIONS — ONE SURGERY AT A TIME

Dissection that's precise and a system that helps preserve air quality. Innovation, together, to create the right solution for your OR.

The Sonicision™ curved jaw cordless ultrasonic dissection system enables:

- Freedom of movement and mobility^{4,†}
- Easier instrument exchanges^{4,‡}
- Occlusion of vasculature up and including 5 mm in diameter⁵⁻⁷
- Precise energy dissection^{4,§}
- Access and visibility in tight space^{4,Ω}
- Improved procedural focus^{4,††}
- Faster dissection speed than the Harmonic Ace™ +7 device^{8,‡‡}
- Lower movable jaw temperature and faster cool down time than the Harmonic HD1000i™ device^{8,§§}

The Valleylab™ laparoscopic smoke evacuation system offers:

- An internal ULPA filter that captures particles smaller or larger than 0.12 micron with 99.9995 percent efficiency or greater. That's with a flow rate of up to 14 liters per minute²
- Removal of the majority of smoke from the peritoneal cavity in less than 30 seconds⁹
- Smoke removal that's twice as fast compared to competitive, passive-evacuation devices^{9,†††}
- Easy set up and use^{3,Ω,‡‡‡}
- Utilize in active mode (attached to suction) or passive mode depending on your OR setup or needs
- A built-in fluid trap to maximize the lifetime of the ULPA filter (up to four hours in continuous mode)⁶

† 29 out of 33 surgeons surveyed after use agreed.

‡ 32 out of 33 surgeons surveyed after use agreed.

§ 30 out of 33 surgeons surveyed after use agreed.

Ω 33 out of 33 surgeons surveyed after use agreed.

†† 17 out of 30 surgeons surveyed after use agreed.

‡‡ Testing performed on bench tissue (porcine mesentery) and measured across 10 consecutive activations using maximum power.

§§ Testing performed on bench tissue (porcine mesentery) and measured across 10 consecutive activations using maximum power on the Sonicision™ curved jaw device and dissection mode on the Harmonic™ HD1000i device.

ΩΩ 21 of 21 surgeons and nurses surveyed after use agreed.

††† As tested with SEL700A which is equivalent to SEL7010 active mode.

‡‡‡ 9 of 10 surgeons and nurses surveyed after use agreed for active mode.

ORDERING INFORMATION

SCDA13	Sonicision™ 13 cm Curved Jaw Cordless Ultrasonic Dissector	6 per box
SCDA26	Sonicision™ 26 cm Curved Jaw Cordless Ultrasonic Dissector	6 per box
SCDA39	Sonicision™ 39 cm Curved Jaw Cordless Ultrasonic Dissector	6 per box
SCDA48	Sonicision™ 48 cm Curved Jaw Cordless Ultrasonic Dissector	6 per box
SCBA	Sonicision™ Reusable Battery Pack	1 per box
SCGAA	Sonicision™ Reusable Generator	1 per box
SCBIGA	Sonicision™ Reusable Battery Insertion Guide	2 per box
CBCA	Sonicision™ Battery Charger	1 per box
SCSTA	Sonicision™ Reusable Sterilization Tray	1 per box
SEL7010	Valleylab™ Laparoscopic Smoke Evacuation System	10 per case

Set your OR up for success.

Try our two innovative solutions today.

†As it relates to reduction of tripping hazards and filtration of surgical plume.

‡As it relates to the improvement of health and safety of the perioperative staff and patients.
