A trocar. A closure system. A new all-in-one device.¹

Introducing the VersaOne™ fascial closure system. It’s a unique all-in-one¹ solution that serves as a trocar and a fascial closure device to deliver:

- Consistent port-site closure¹,⁺
- Added procedural efficiency¹,⁺,⁺
- Ease of use¹,⁺

† Saves time compared to the competitive closure device, suture passers, and hand sutures.
⁺ 13 out of 16 surgeons surveyed agreed

CONSISTENT PORT-SITE CLOSURES WITHOUT REMOVING THE PORT.¹,²
ACCESS AND CLOSURE.
WITH A SINGLE DEVICE.

The VersaOne™ fascial closure system is an all-in-one1,* device that brings consistency to laparoscopic closures.1,* It also:

- Eliminates the need to remove the trocar before closing1,2,*
- Makes reinsufflation unnecessary — pneumoperitoneum can be maintained throughout the procedure2
- Allows tissue layers to remain aligned2

Consistent Closure and Suture Placement1,*

*13 out of 16 surgeons surveyed agreed
TRADITIONAL CLOSURE METHODS CAN BE INCONSISTENT.7,8

Fascial closure techniques such as hand suturing, suture passers, and closure devices can be inconsistent.7,8

We developed the VersaOne™ fascial closure system to bring consistency to closures at the port site.1,*

5 mm fascia capture on either side of the trocar has been shown to reduce the potential for herniation4,†
