LigaSure™ Small Jaw Instrument
Outperforms All Rivals

What can the LigaSure™ small jaw instrument do for your practice?
The LigaSure™ small jaw device has changed how I perform thyroidectomy. From the curved jaw and lack of heat at the tip that allow you to go right up to the trachea without causing injury, to the fact that you use a cold knife to cut as opposed to just heat, like with Harmonic Focus™.

Dr. Paolo Miccoli, Universitaria Pisana Pisa, Italy

Using this instrument (LigaSure™ small jaw device) allows you full control over the surgical procedure, which is not only time saving, but also makes you more comfortable with the procedure. That’s the most important thing.

Dr. Paolo Miccoli, Universitaria Pisana Pisa, Italy

For all the vessels you encounter (in head and neck surgery) the LigaSure™ small jaw is fit for the purpose.

Dr. Neil Tolay, Consultant ENT and Thyroid Surgeon, St. Mary’s Hospital, London
