After hundreds of customer interactions and development exercises, we observed a consistent and central theme to the Sonicision™ device:

- Freedom from tethered designs that limit motion.
- Freedom from non-upgradable larger capital investments.
- Freedom to focus on the patient, not the device.
- Freedom from time-consuming set-up.
- Freedom to experience less visual obstruction from smoke¹, and faster dissection².

FREEDOM
HOW WOULD YOU BENEFIT?

**SURGEONS**

**Clinical Performance**
- Burst pressure, thermal spread, hemostasis and temperature are comparable to Harmonic ACE™*2.
- Faster dissection than the Harmonic ACE™*1.

**Cordless Design**
- Improves mobility and natural movement
- Makes it easier to pass between operators
- Reduces cord entanglement

**Simplified Set-up**
- Allows for autonomous, quick set-up all within the sterile area
- Can improve efficiency by simplifying set-up

**Dual-mode Energy Button**
- Allows for efficient transition between low and high power modes without eyes leaving the surgical field
- May improve procedural focus

**NURSES**

**Simplified Set-up**
- Allows for autonomous, quick set-up, all within the sterile area
- Can improve efficiency by simplifying set-up

**SELF-CONTAINED SYSTEM**
- Improves the use of the O.R. space
- Portable system allows use in any O.R.
- System provides essential feedback within the operative field
- Dual-mode energy button allows surgeon to transition between power modes without adjusting the generator

**ADMINISTRATORS**

**Standardization / Cost Savings**
- Current capital cost advantages mean ultrasonic can be used in more operating rooms
- One vendor that can address energy needs may allow for savings through standardization
- Built-in upgrades means generators don’t become technologically outdated
- Simplified set-up improves O.R. efficiency

---

1. When compared to the Harmonic ACE™* on maximum power through 10 cm of porcine mesentery. Results show a statistically significant (P < 0.0001) difference in mean dissection speed.

IMPORTANT: Please refer to the package insert for complete instructions, contraindications, warnings and precautions.
