**IN-SERVICE GUIDE**

**Signia™ Stapling System**

**SET UP AND CHARGE**
- Rock the base of the power handle.
- First activation: Charge the power handle for a minimum of three hours before clinical use.
  - A fully charged battery is indicated by a solid green LED.

**ASSEMBLE THE HANDLE**
- Remove the power handle from the charging terminal.
- Scrubbed person: Place the sterilized insertion guide on the open power shell.
- Circulating person: Insert the power handle into the power shell, and remove the reusable insertion guide.
- Close the power shell until there is audible and tactile confirmation the latch is fully closed.

**LOAD THE STAPLER RELOAD**
- Align the proximal end of the adapter with the QUICK RELEASE button facing up.
- Press the two components together until the adapter is fully seated in the stapler handle.
- Confirm connection of the linear adapter on the display screen.
- Push the reload into the adapter and twist clockwise.
- Ensure that all three top secure clips are secured.
- Press the two components together until the adapter is fully seated in the stapler handle.
- Perform a reload cycle test:
  - Press and hold the DOWN toggle until jaw is completely closed
  - Press and hold the UP toggle until jaw is completely closed
- Once complete, the handle will show that the reload is loaded and ready for use.
- Insert the instrument in the patient’s body cavity. Press and hold the UP button to open the jaws of the instrument. Clamp the jaws of the reload on release by pressing DOWN.
- To FIRE: Press and hold the DOWN/FIRE toggle until the knife reaches the distal end and firing is complete.
- To retract: Press and release the UP toggle.
- To open: After firing, press and hold the UP toggle until fully opened.

**DISASSEMBLE THE RELOAD**
- Unloading a reload: Once articulation is centered and the jaws are open, pull the blue UNLOAD button back to release the reload.
- Twist the reload counterclockwise until unlocked (about 45 degrees).
- Remove the reload from the adapter.
- Press and hold the QUICK RELEASE button while pulling the adapter off the power stapling handle.
- Open the power shell by releasing the two side secure clips.
- While holding the back of the power shell, push the bottom release latch to open the power shell.
- With clean gloves, securely remove the power handle from the power shell and place it in a clean environment.

**REMOVE THE ADAPTER**
- Press and hold the QUICK RELEASE button while pulling the adapter off the power stapling handle.

**REMOVE THE POWER SHELL AND POWER HANDLE**
- Open the power shell by releasing the two side secure clips.
- While holding the back of the power shell, push the bottom release latch to open the power shell.

**DISCARD THE USED POWER SHELL**
- Warning: The power shell cannot be sterilized after use.

**IMPORTANT:** Please refer to the package insert for complete instructions, contraindications, warnings and precautions. You may also refer to the Signia™ User Manual.
