RELATIONSHIP REDEFINED
THE PARTNERSHIP YOU DESERVE

TA™ Stapler with DST Series™ Technology
Product Brochure

Medtronic
Further, Together
At Medtronic, we address your most pressing needs. As a complete solution provider, we offer a comprehensive open stapling portfolio with a reputation for reliability, consistency, and efficiency.

Partner with us for:
- Products designed to meet all of your procedural and economic needs
- Efficient inventory-cost management
- Hands-on training by highly trained clinical experts
- Expertise from a global network of healthcare professionals
- On-site support from a skilled sales force

We help you deliver the best patient care you can by providing access to a broad range of innovative technology, from wound closure to advanced energy solutions. By collaborating with Medtronic, you’ll experience a relationship redefined.

Our comprehensive open stapling portfolio has a reputation for reliability, consistency and efficiency and is designed to meet all of your procedural and economic needs. Learn more about one of the solutions designed to address colorectal surgery, the TA™ stapler with DST Series™ technology.
TA™ STAPLER WITH DST SERIES™ TECHNOLOGY

Features

Linear stapler designed with 4.8 mm, 3.5 mm, and 2.5 mm stapler heights, which may improve security (resistance to fluid leakage) during surgical resection. 1

- Cutting guide
- Two staggered rows of DST Series™ technology staples, three for vascular
- DST Series™ technology for superior staple strength
- TA™ stapler with DST Series™ technology can be reloaded 7 times for a total of 8 firings. Benefits hospital by reducing costs

- Retaining pin aligns the cartridge and anvil
- To ensure proper “B-Shaped” staple formation
- Long, slim shaft
- For excellent access and visibility
- Ergonomic one-handed design
- For ease of use
- Dual action handle
- For closing/firing stapler with tactile pre-clamp position
- Strong, low profile anvil
- Provides optimum access without deflection. Low profile body/head for improved access and visibility
- Rubber inlay grips
- Parallela jaw closure
- Disposable loading unit
- With secure grip
- Confirmation of firing
- With secure grip
- Black release button
- For easy opening
- Automatic/remote, manual pin placement for flexibility and control

Portfolio + Standardization + Service
**DST SERIES™ TECHNOLOGY**

**TRADITIONAL STAPLE**
Round wire cross-section is more prone to bend in any direction in challenging applications.

**DST SERIES™ TECHNOLOGY STAPLE**
Rectangular wire cross-section bends more reliably in the intended direction.
