* This is Android Specific. Tapping this icon opens up a view with all installed applications on the Android device.
ANDROID DEVICES
Connecting to Wi-Fi
- A secure Wi-Fi network is recommended
- Go to Settings app
  - To find the Settings app, go to the Grid icon. The apps are listed in alphabetical order. Find the Settings icon.
- Tap on Wi-Fi
  - If Wi-Fi is turned Off, slide the button to the right to turn On
- Tap on the Network you want to connect to
- Enter any passwords/credentials

Confirming Wi-Fi Connection
- Go to Settings
  - To find the Settings app, go to the Grid icon. The apps are listed in alphabetical order. Find the Settings icon.
- Tap on Wi-Fi
  - Slide button to the right to turn on
- Check that "Connected" displays underneath the correct network
Turning on Bluetooth
- Go to Settings app
  - To find the Settings app, go to the Grid icon. The apps are listed in alphabetical order. Find the Settings icon.
- Tap on Bluetooth
  - Confirm Bluetooth is on
- Tap on, and then select the device you want to connect to

Confirming Bluetooth Connection
- Tap on the Settings app
- Tap on Bluetooth
- See which devices are listed as Paired devices. If no devices are paired, choose the device you wish to pair.

Tip: If the Reader isn’t appearing in the list of available devices, turn Bluetooth off and on again to scan for new devices.
Operating Systems That Are Compatible with the MyCareLink Smart Monitor

For Android devices, the MyCareLink Smart App is compatible with Android 4.1.2 and above.

**Note:** If you have an incompatible mobile device and go to the App Store to search for the MyCareLink Smart App, the app will not appear. In the same scenario, if you navigate to the App Store via the landing page, you will see a message indicating that your device is not compatible. If you ever forget the minimum requirement for smartphones or tablets, you can navigate to mycarelinksmart.com and view the information on the bottom of the page.
Installing MyCareLink Smart App from the Google Play Store

1. Go to www.mycarelinksmart.com from your Browser on your smartphone or tablet
2. Tap on Download button. This will launch the Google Play Store.
3. Tap on Install
4. Tap on Accept to start the download
5. The app will now download

Example of an Android Device
LOCATING AN OPERATING SYSTEM VERSION

Locating Mobile Device Operating System (OS) Version

- Tap on Settings
  - Samsung Specific: Tap on More
- Tap on About phone
- The operating system is displayed under Android version
- The MyCareLink Smart App is compatible with Android 4.1.2 and above
What Does It Look Like if the Device or Operating System (OS) Is Incompatible?

- You will have clicked the install link from www.mycarelinksmart.com. The link will direct you to the Google Play Store and present you with the message at right:

**What to Do?**

- If it is an OS issue (check in Settings), see if Software Update is available
- You may not have the correct device to download this app

**Note:** If you have an incompatible smartphone or tablet and go directly to the App Store to search for the MyCareLink Smart App (not utilizing the landing page), the app will not appear.

NOTE: This image will only appear when the user clicks on the MyCareLink Smart link on the landing page.
Unpairing the Reader
(Troubleshooting only)

To Unpair the Reader:
- Go to Settings
- Tap on Bluetooth
- Tap on the Paired Device
- Choose Forget or Unpair (displays Reader serial number)

Unpairing the Reader
(These steps are specific to the Samsung Galaxy S4)

To Unpair the Reader:
- Go to Settings
- Tap on Bluetooth
- Tap on the Paired Device
- Choose Unpair
APPLE iOS
DEVICES
Connecting to Wi-Fi
- A secure Wi-Fi network is recommended
- Tap on the Settings app
- Tap on Wi-Fi
  - If Wi-Fi is turned Off, slide the button to the right to turn On
- Choose a Network
  - Tap on the Network you want to connect to
  - Enter any passwords/credentials

Confirming Wi-Fi Connection
- Go to Settings, tap Wi-Fi and check that there is a blue check mark next to the wireless name
**BLUETOOTH FEATURES**

**Connecting to Bluetooth**
- Go to Settings
- Choose Bluetooth
  - If Bluetooth is turned Off, slide the button to the right to turn on
- Under My Devices tap on the device you want to connect to

**Confirming Bluetooth Connection**
- Go to Settings
  - Tap Bluetooth
  - Check that it says "Connected" next to the device you want to connect to

**Tip:** If the Reader isn’t appearing in the list of available devices, turn Bluetooth off and on again to scan for new devices.
Devices and Operating Systems (OS) that are Compatible with the MyCareLink Smart Monitor

The Medtronic CareLink, MyCareLink, MyCareLink Smart Patient Monitors, MyCareLink Smart Application, Medtronic CareLink Network, and the CareLink Mobile Application are indicated for use in the transfer of patient data from Medtronic implantable cardiac devices. These products are not a substitute for appropriate medical attention in the event of an emergency. Data availability and alert notifications are subject to Internet connectivity and access, and service availability. The CareLink and MyCareLink Patient Monitors and the MyCareLink Smart Reader must be on and in range of the device. The MyCareLink Smart Reader must also be within range of the user mobile device. CareLink and MyCareLink alert notifications are not intended to be used as the sole basis for making decisions about patient medical care.

**Brief Statement: Medtronic CareLink™, MyCareLink™, MyCareLink Smart™ Patient Monitors, MyCareLink Smart™ Application, Medtronic CareLink™ Network and CareLink™ Mobile Application**

**Intended Use:** The Medtronic CareLink, MyCareLink, MyCareLink Smart Patient Monitors, MyCareLink Smart Application, CareLink Network and the CareLink Mobile Application are indicated for use in the transfer of patient data from some Medtronic implantable cardiac devices based on physician instructions and as described in the product manual. The CareLink Mobile Application is intended to provide current CareLink Network customers access to CareLink Network data via a mobile device for their convenience. The CareLink Mobile Application is not replacing the full workstation, but can be used to review patient data when a physician does not have access to a workstation. These products are not a substitute for appropriate medical attention in the event of an emergency and should only be used as directed by a physician. CareLink Network availability and mobile device accessibility may be unavailable at times due to maintenance or updates, or due to coverage being unavailable in your area. Mobile device access to the Internet is required and subject to coverage availability. Standard data and text message rates apply.

**Contraindications:** There are no known contraindications.

**Warnings and Precautions:** The CareLink, MyCareLink and MyCareLink Smart Patient Monitors must only be used for interrogating compatible Medtronic implantable devices. Additionally, the CareLink and MyCareLink Monitors are intended for use within the prescribing country. The MyCareLink Smart Patient Monitors may be used internationally. Standard mobile device availability and rates apply.

See the device manual for detailed information regarding the instructions for use, indications, contraindications, warnings, precautions, and potential complications/adverse events. For further information, please call Medtronic at 1 (800) 929-4043 and/or consult Medtronic’s website at www.medtronic.com.

**Caution:** Federal law (USA) restricts this system to sale by or on the order of a physician.
