Brief Statement: Medtronic Paceart™ System

Intended Use

The Paceart System is intended for use as a 12-lead electrocardiograph, pacemaker artifact analyzer, and transtelephonic ECG receiving station. It also acts as a database for cardiac patients with or without pacemakers or implantable cardioverter defibrillators.

Contraindications

There are no known contraindications for the Paceart System.

See the Paceart manuals for more detailed information regarding precautions and use of the system. For further information regarding Paceart, please call Medtronic at 1-800-722-3278 and/or consult the Medtronic website at paceart.com.

Caution: Federal law (USA) restricts this device to sale by or on the order of a physician.
