

## Prepare for Your Doctor Visit

To prepare for your doctor visit, here are some questions you may want to ask about heart valve repair:

- How often should I schedule a follow-up visit?
- Do I have any activity limitations?
- When can I go back to work?
- What medications will I be given and what do they do?
- Are blood transfusions necessary?
- What type of blood tests will be run?
- What are the symptoms of valve repair or replacement failure?
