The Endurant II/Endurant IIs Stent Graft System is contraindicated in:

- Patients with known sensitivities or allergies to the device materials.
- Patients who have a condition that threatens to infect the graft.
- Patients with known active infection.
- Patients with known history of recurrent endoleaks.
- Patients with uncontrolled anticoagulation.
- Patients with known active aortic dissection.

The safety and effectiveness of the Endurant II/Endurant IIs Stent Graft System has not been evaluated in some patient populations. Please refer to the product Instructions for Use. For additional information regarding MRI please refer to the product MRI Safety and Compatibility. Non-clinical testing has demonstrated that the Endurant II/Endurant IIs Stent Graft is MR Conditional. It can be scanned safely in both 1.5T & 3.0T MR systems under certain conditions as described in the product Instructions for Use.

Instructions for Use.
