

THE RIGHT PROCEDURE FOR THE RIGHT PATIENT

Supporting your choice of surgical therapies for your patients with coronary artery disease (CAD).

Medtronic

NEW WAYS OF WORKING TOGETHER

Together — with your skilled knowledge and our enabling technologies — we can deliver the right therapies for each individual patient with coronary artery disease (CAD). The changing cardiac surgery landscape is challenging, and we stand with you as one healthcare team — striving to find new solutions for CAD.

As the patient population changes, so do the demands on you. Our world-class training and education opportunities may be just what you need. Learn new skills and gain hands-on experience with technologies that may be new to you. Choose the best therapy for your patients with CAD.

THE RIGHT COMBINATION OF INNOVATION AND EDUCATION FOR YOU

For your CAD patients, explore technologies that support conventional CABG with CPB, beating heart CABG with CPB, OPCAB, MICS CABG and HCR. Whether you're performing all or some of these procedures, only Medtronic can offer the combination of technologies, training/education, and clinical support that make sense for you and your patients.

THERAPIES AND TECHNOLOGIES	Octobase™ Retractor System	ThoraTrak™ MICS Retractor System	Octopus™ Tissue Stabilizers	Starfish™ Urchin™ Heart Positioners	ClearView™ Blower/Mister AccuMist™ Blower/Mister	Sutures and Aortic Punches	ACT Plus™ System HMS Plus System	autoLog™ Autotransfusion System	Tubing Packs	MYOtherm XP™ Cardioplegia Delivery System	Affinity Fusion™ Oxygenation System	Affinity™ CP Centrifugal Blood Pump	Standard, MICS, and Cardioplegia Cannulae	Venous and Cardiomy Reservoirs	Temporary Pacing Wires	Coronary Shunts	Coronary Stents
