THE POWER OF PURPOSE

2019 Medtronic Corporate Citizenship — Adding Value to Society

IMPROVING THE HEALTH OF GLOBAL COMMUNITIES

As global citizens, we leverage the full size and reach of our company to contribute to communities around the world. Medtronic is dedicated to growing our portfolio of life-saving technologies, expanding access to quality, value-driven healthcare, and supporting the hundreds of global communities where we work, live, and make a difference every day.

Expanding Access to Quality Care

At Medtronic, we harness the power of technology to improve patient outcomes, collaborating across the healthcare industry to uncover solutions to complex and unmet health challenges. We believe our products should be available to all people who need them — no matter who they are or where they live. We work to develop new business models that improve affordability and advocate for the adoption of value-based healthcare models.
IN FISCAL YEAR 2019 (FY19), MEDTRONIC:

INVESTED
$2.3 BILLION IN RESEARCH AND DEVELOPMENT

CONTINUED
275+ ONGOING CLINICAL STUDIES AND LAUNCHED

Our products and services improved the lives of 75 million people around the world in FY19.

Furthering Impact through Philanthropy
We give back to the communities we serve by combining the power of our company, employees, and the Medtronic Foundation to improve lives globally. We establish partnerships to make investments based on impact and outcomes for underserved communities, including financial contributions, product donations, volunteer support, and charitable third-party medical education.

PARTNERING TO ACCELERATE CHANGE
Public-private partnerships offer significant opportunities to increase patient access to our products and services in new markets. Medtronic actively pursues partnerships around the world to address gaps in healthcare.

DISRUPTING THE OPIOID EPIDEMIC
Working with patients, providers, regulators, and other partners, Medtronic is helping disrupt the U.S. opioid epidemic by raising awareness of alternatives to conventional pain medication and researching clinical and economic evidence of their effectiveness.
IN FY19:

SUPPORTING THE SCIENCE, TECHNOLOGY, ENGINEERING, AND MATH TALENT PIPELINE
Since 2006, Medtronic and the Medtronic Foundation have supported FIRST® Robotics competition teams and events for kids from kindergarten to grade 12 with financial contributions and mentors. In FY19, 50 Medtronic employees volunteered more than 5,300 hours to FIRST® Robotics.

EMPOWERING COMMUNITY HEALTH WORKERS
A recent five-year global health program funded by the Medtronic Foundation expanded access to care for those with cardiovascular disease and diabetes in underserved communities in Brazil, India, South Africa, and the United States. The program trained 3,637 health workers and screened 65,000 previously undiagnosed people for hypertension and/or diabetes.
