COMPREHENSIVE ENT SOLUTIONS FOR YOUR OFFICE

Medtronic ENT continues to be the leader in providing innovative and comprehensive solutions for the treatment of ENT diseases in the Office Market space. We focus on enabling technologies that deliver clinical and economic value for you and your patients. Transform your office by:

- Bringing the precision of the OR to your office procedure room
- Providing navigated treatment options
- Working with our team to increase your comfort level with in-office therapies and procedures
TOGETHER, WE CAN TRANSFORM YOUR OFFICE

FLEXIBLE NAVIGATION BY DESIGN
StealthStation FlexENT™ Navigation System
StealthStation FlexENT™ is a flexible, easy to use IGS® system, that offers the following key benefits:
• Six hardware configurations - with and without a cart - to build the best solution for your specific clinical and facility needs
• Manage multiple navigated instruments simultaneously
• Add-on software modules as needed for enhanced visualization and surgical planning

MAXIMUM VISIBILITY TO DIAGNOSE AND NAVIGATE
NewTom GiANO HR Scanner*
• Large 16 X 18 cm field of view with high quality images
• GiANO images meet the imaging protocol for StealthStation™ ENT and StealthStation Flex ENT navigation systems
• SafeBeam™ Technology automatically adapts exposure according to patients build, reducing risk of overestimated dosages3
• Simplified workflow
• Versatile NNT software

A BROAD SET OF TOOLS FOR IN-OFFICE PATIENT CARE
Sinus surgery is changing. Basic sinus procedures are increasingly performed in the office — which can offer significant benefits to you and your patients.4

NuVent™ EM Balloon Sinus Dilation System
Used in conjunction with our Fusion™ navigation technology, the NuVent™ system can be used to open blocked drainage pathways.
• Factory-calibrated seekers for true plug and play with Fusion™ navigation
• Four unique designs for sinus applications
• Inflator with a built-in pressure regulator to prevent over-inflation

XPS Nexus™ ENT Power Console
The XPS Nexus™ System is designed for in-office powered sinus surgery.
• Simple setup that is portable and easy to move around
• Same equipment platform you already know from the OR
• Handpiece recognition
• Built-in irrigation pump

HydroCleanse™ Sinus Wash Delivery System
• Pressurized sinus irrigation with a self-filling syringe
• 360° rotatable fan spray
• Sinus specific suction catheter tips
• Single hand operation

StraightShot™ M4 Microdebrider
With fingertip control on the Straightshot™ M4, the blade tip rotates 360° independently of the shaft.
• Perform procedures such as polypectomy and ethmoidectomy submucosal IT resection
• Factory-calibrated Automated EM Tracking Blades for true plug and-play with Fusion™ navigation
• Innovative Quadcut™ Blades significantly reduces clogging over Tricut™ Blades5
