GETTING STARTED ON THE SMART INPEN™ SYSTEM

A step-by-step training guide for patients

1. **DOWNLOAD** the app from the App Store or Google Play by searching “InPen”

2. **SETUP**
   - Follow the Setup Wizard and click “Get Started” to sign up using Facebook, Google, Twitter, or email
   - Tell us about you

3. **THERAPY SETTINGS**
   - Consult with your clinician which Therapy Setting is best for you: carb counting, meal estimation, or fixed dose
   - Turn ON time of day settings (overnight default is 10 pm)
   - Enter long-acting insulin dose amount and number of doses

4. **CONNECT INPEN AND CGM (IF APPLICABLE)**
   - Allow Bluetooth® and location permissions - follow pairing instructions
   - Confirm settings
   - Connect to Apple Health if you want to share data with other diabetes apps
Welcome to the InPen System

The InPen system automatically records rapid insulin injections give by the pen and recommends doses based on current blood glucose, insulin dose, and current active insulin (Insulin-on-Board).

Get to Know the InPen Smart Insulin Pen

Let’s get you started!
Supplies needed:
- Apple iOS (10 or higher) or Android™ (6.0 or greater) device
- InPen smart insulin pen
- InPen app - Download from the App Store or Google Play “InPen”
- Insulin cartridge (Humalog®, Novolog®, or Fiasp®)
- Disposable pen needle

Welcome to the InPen System
Navigating the InPen app:

1. Adjust/Edit Therapy Settings
2. Toggle ON/OFF reminders and notifications
3. Connect CGM if skipped during setup

To Edit Therapy Settings:
- Dose Calculator Settings
- Long-acting Insulin Settings
- Meal Time Settings

If pairing a second InPen to the app, Select the ‘+’ to add

Toggle ON/OFF Reminders

Technical Support phone number, email, and link to online Help Center

Connect your CGM or BGM devices via Apple Health
Setup Wizard

InPen smart insulin pen is designed to easily get you started. Once the app has been downloaded, the wizard guides you through the setup process.

Meal Therapy is based on the meal mode determined by your clinician. This screen will direct you to Carb Counting, Meal Estimation, or Fixed Dose preferences.

Meal Therapy
Follow the steps to set meal therapy preferences.

Dose Calculator Setup
Turn ON Time of Day settings, if applicable. Use last time segment for overnight settings (default is 10pm).
Long-acting Insulin
Enter your long-acting insulin dose amount and the day for each dose.

TIP: Combine weekday + weekend schedules for wider range.

Enter your earliest and latest meal times for:
Breakfast
Lunch
Dinner
Enter the earliest and latest bedtime.
Always allow Bluetooth® and location permissions.
If needed, check Bluetooth® settings specified for InPen app (Phone settings > Apps > InPen).

1. Pairing InPen
   Watch the video: How to dial and dispense a pairing dose.

2. Confirm the settings provided to you by your healthcare provider.
A step-by-step guide for patients

GETTING STARTED ON THE SMART INPEN™ SYSTEM

Important
There are times when your app may not yet have the latest doses from InPen. These can include:
- Bluetooth disabled
- Airplane Mode on
- iOS device too far from InPen
- Environmental conditions

Confirm your last dose on the home screen before making any treatment decisions.

Install Insulin Cartridge
Use the following procedure to install an insulin cartridge.
1) Remove cartridge holder.
2) Rewind the screw.
3) Insert cartridge.

Taking an Insulin Dose

InPen Support
We’re here for you!

InPen has a 1-year warranty! Don’t hesitate to call customer support for troubleshooting or warranty replacements at 844-843-7903.

InPen connects with select CGMs and BGMs. For a complete list of compatible devices, visit www.MyInPen.com.

Congratulations your setup is complete.
How to Fax, Email, or Print Insights Report:

In-app instructions on how to send your Insights report to your healthcare provider.

 Generating and Sharing a Report

1. From the home screen; click on ‘Reports’ at the bottom.

2. Select ‘Settings’ icon in upper left corner.
   Select your date range and ‘save’ in upper right.

3. To SHARE a report, click on the ‘Send’ icon on the top right of the screen. Select how you would like to send report.
   Enter information (fax number, email address, or select printer) and send.
Smart insulin pens connect to a mobile app to provide dosing calculations, reminders and CGM system integration.

*Data may not appear or be delayed in certain instances, including when there is no internet connection. A confirmatory fingerstick is required prior to making adjustments to diabetes therapy.

*Terms and Conditions: Eligibility Requirements for InPen™ Patient Access Program: Open to uninsured patients and patients with commercial prescription insurance and who are not enrolled in any government-funded program that pays for prescription devices or treatments. Excluded participants include patients enrolled in any federal, state, or government-funded healthcare program such as Medicare, Medicare Advantage, Medicare Part D, Medicaid, MBM, Veterans Affairs (VA), the Department of Defense (DoD) or TRICARE® that provides coverage for InPen, or where prohibited by law. Cash Discount Cards and other non-insurance plans are not valid as primary under this offer. If at any time a patient becomes enrolled under any such federal, state, or government-funded healthcare program, he/she will no longer be able to use this program and must call 844-843-7903 to stop participation. Restrictions may apply. Offer subject to change or discontinuation without notice. This is not health insurance. Offer applies to a maximum of 2 prescribed InPens per Patient per benefit year. Offer good only in the USA at participating pharmacies and cannot be redeemed at government-subsidized clinics.

**Humalog® is a registered trademark of Eli Lilly and Company. Fiasp® and Novolog® are registered trademarks of Novo Nordisk A/S.

Important Safety Information: Guardian™ Connect CGM System
The Guardian™ Connect system requires a prescription and is indicated for continuous or periodic monitoring of glucose levels in the interstitial fluid under the skin, in patients (14 to 75 years of age) with diabetes mellitus. The system is intended to complement, not replace, information obtained from standard blood glucose monitoring devices, and is not recommended for people who are unwilling or unable to perform a minimum of two meter blood glucose tests per day, or for people who are unable or unwilling to maintain contact with their healthcare professional. The system requires a functioning mobile electronic device with correct settings. If the mobile device is not set up or used correctly, you may not receive sensor glucose information or alerts. For complete details of the system and its components, including warnings, contraindications, and precautions, please consult the user guide at www.medtronicdiabetes.com/support/download-library/user-guides and important safety information.

Important Safety Information: InPen™
The InPen™ is a home-use reusable pen injector for single-patient use by people with diabetes under the supervision of an adult caregiver, or by a patient age 7 and older for the self-injection of a desired dose of insulin and for calculating an insulin dose or carbohydrate intake based on user entered data. A healthcare professional must assist in dosage programming of the device prior to use, based on various patient-specific criteria and targets. The InPen™ requires a prescription. For additional product and safety information, please consult the instructions for use and bit.ly/InPenSafety.
