

CHANGING WHAT'S POSSIBLE IN HEALTH CARE

Medtronic and the Medical University of South Carolina have partnered to develop value-based health care solutions designed to improve the health outcomes, care experience and cost of health care for patients with chronic diseases and conditions in South Carolina and beyond. The partnership combines Medtronic therapy and technology expertise and MUSC's clinical and academic expertise to create a more connected and coordinated care model with shared accountability — focusing on quality of care and putting patients first.

Patents in portfolio

 World's largest medical technology company founded in 1949

The Medical University of South Carolina is driven by our vision of Leading Health Innovation for the Lives We Touch. We are changing what's possible through our mission to provide excellence in patient care, teaching and research.

Strategic Goals

- > Commit to Patients and Families First
- > Advance New Knowledge and Scientific Discoveries
- > Foster Innovative Education and Learning
- > Build Healthy Communities
- > Embrace Diversity and Inclusion

Medtronic is among the world's largest medical technology, services and solutions companies — alleviating pain, restoring health and extending life for millions of people around the world. We are collaborating with stakeholders worldwide to rethink the status quo and take healthcare Further, Together.

Business Strategy

- > **Therapy Innovation** – Introduce and deliver meaningful offerings at the therapeutic, procedural and system level
- > **Globalization** – Address the inequities in health care access globally
- > **Economic Value** – Help lead the creation of value-based health care solutions

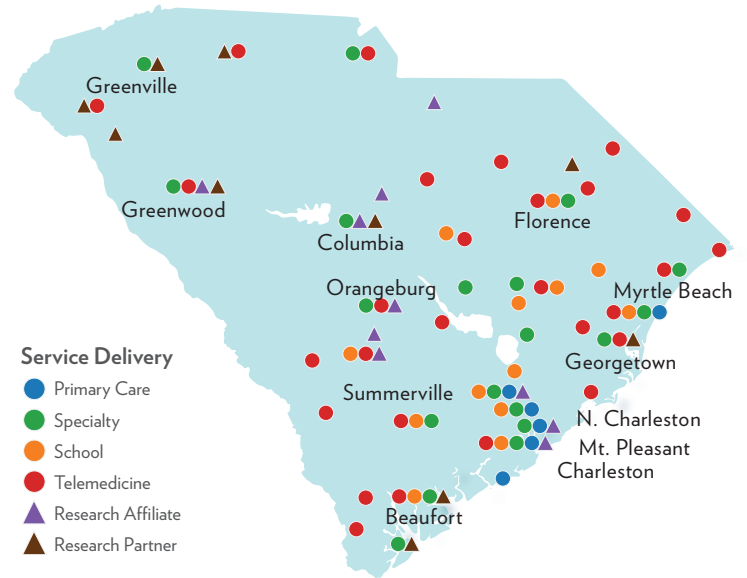

MEDICAL UNIVERSITY OF SOUTH CAROLINA

“This strategic partnership with Medtronic is based on our shared vision and felt need to lead the transformation of health care delivery,” said MUSC President David J. Cole, M.D., FACS. “It’s about providing what’s best for our patients. The mutual goal of our organizations is to deliver the

best patient outcomes at the lowest cost possible. That’s the true meaning of value-based health care. Through our collaborative partnership, we plan to combat chronic disease and address community health needs in South Carolina and beyond. We look forward to an innovative and productive relationship with Medtronic and will share tangible results of our efforts as our strategic partnership evolves.”

MEDTRONIC

“Together with MUSC, we are committed to fundamentally improving the way patient care is delivered,” said Omar Ishrak, Medtronic chairman and chief executive officer. “Medtronic has a long history of collaboration with health care providers to invent and develop new markets to solve a variety of clinical problems. The partnership with MUSC is an extension of that collaboration, as we look to systematically work together to develop scalable programs aimed at improving patient outcomes while reducing the cost of care.”
