Public-private partnerships
Increasing patient access in multiple communities aligns with the core of our Mission. These public-private partnerships — with outcome-oriented business models — create mutual benefits by making the most of Medtronic skills, expertise, and assets through the appropriate transfer of risk. They drive our globalization strategy and actively contribute to the international push for universal health coverage. With jointly defined objectives, they address health system challenges efficiently by increasing access to therapy innovation, raising quality, and delivering improved outcomes.
