

Medtronic

Engineering the extraordinary

Financing solutions that fuel possibilities for ASCs

Expand your capabilities, not your capital constraints, with **Medtronic Financial Services.**

At Medtronic, we believe every patient deserves access to the best care.

And every ambulatory surgery center deserves the latest technology to deliver it.

Medtronic Financial Services is here to break down barriers, making it easier for your ASC to acquire, use, and upgrade the innovations that set you apart.

Transforming access to advanced technology

Your ASC can benefit from flexible financing and support for our most advanced technologies, including:

StealthStation™
Navigation system

ValleyLab™ FXGEN
Electrosurgical generator

Affera™
Mapping and ablation

Mazor™
Robotic guidance

Financial solutions to fit your ASC

We offer a comprehensive suite of financial options to help you bring the latest Medtronic technology to your patients, without the barriers of traditional capital acquisition, including:

- Medtronic capital and operating leases
- Third-party capital
- Service and repair programs
- Rental programs
- Directed rebates
- Construction and build-outs

What's in it for your ASC?

Integrated process

We make acquiring your Medtronic equipment **simple and easy** by streamlining the entire process.

Conservation of capital budget

Financing through us means **critical funds are not tied up in equipment.**

Fixed payments

Transparent and fixed monthly payments help you to better budget money for the term of the agreement while providing a hedge against inflation.

100% financing

In addition to financing 100% of the equipment cost, we can also **include service, maintenance, and insurance in the monthly payment.**

Flexibility

We will work with your team **to find solutions that best fit your needs and budget.**

Technology refresh

Certain programs allow you the option to **upgrade to newer Medtronic technologies** at the end of the term, or at any point during the agreement.

Medtronic is more than a medical technology provider – we're your ally in advancing patient care.

Let's work together to grow your ASC's technology, capabilities, and operational efficiency.

Contact your Medtronic sales representative or email rs.ascteam@medtronic.com to start our partnership today.
