

Medtronic
Empower ASC™
Growth Platform

Built to **stand** with **ASCs**

We serve ASCs of all sizes and specialties – with the breadth to simplify today and the scale to grow tomorrow.

A new kind of leadership, built to empower ASCs across stages and specialties.

ASCs deserve solutions designed around the realities of outpatient care. Grounded in decades of healthcare technology leadership, **Medtronic Empower ASC™ Growth Platform** brings innovation-led technologies and coordinated enterprise support together into an experience shaped around your priorities today and your ambitions for tomorrow.

How we show up for ASCs

Purpose-built growth

Growth on your terms, supported at every step.

From planning and launch through expansion, we support ASCs across stages and specialties. By bringing together technology, capital pathways, education, and strategic guidance aligned to outpatient realities, we help lay the groundwork for purposeful growth at the right pace for each center.

Clinical confidence

Technology you trust. Performance you can repeat – case after case.

Confidence matters at every moment of care. We equip ASCs with clinically validated technologies, deep procedural expertise, and ASC-focused education across a broad range of specialties – so teams can deliver care with consistency and assurance.

Predictable performance

Consistency you can plan around.

Medtronic helps ASCs deliver consistent clinical, operational, and financial execution by pairing proven technologies with support, insights, and partnership needed to reduce variability and sustain performance over time.

Simplicity at scale

Scale services without scaling complexity.

As ASCs expand, greater breadth shouldn't mean greater burden. We bring specialty technologies and services together into a coordinated experience – supporting expansion while sustaining focus on day-to-day operations.

Coordinated capabilities aligned to every phase of outpatient care.

Harness the combined strength of industry innovators to redefine what's possible for your ASC.

Clinical technology

- Market-leading devices, implants, and enabling technologies
- Preferred access to Siemens Healthineers™ imaging and diagnostics

Operations and service

- OR workflow optimization
- On-demand service and repair

Financial performance and reimbursement

- Claims data analysis
- Reimbursement and coding support

Education and clinical enablement

- On-demand medical education and staff training including CEU-accredited courses

ASC development and strategic growth

- ASC development, expansion, and optimization
- Patient navigation and access programs
- Flexible financing for Medtronic and third-party capital

Specialty solutions in step with how ASCs operate.

Clinically proven innovations tailored by specialty – paired with ASC-focused training and workflows designed for outpatient care delivery.

Medical Surgical

Bariatric Surgery

- Advanced energy
- Stapling

Surgical Solutions

- Robotic-assisted surgery
- Hernia repair solutions
- Advanced energy
- Electrosurgery
- Smoke evacuation
- Endoscopy systems
- AI-enabled surgical tools
- Wound closure

Acute Care and Monitoring Solutions

- Patient monitoring systems

Cardiovascular

Cardiac Pacing

- Implantable loop recorders
- Pacemakers
- CRT/CRT-D devices

Cardiac Ablation and Mapping Solutions

- Cryoablation
- Pulsed field ablation (PFA)
- PFA and mapping

Interventional Cardiology

- Coronary stents
- Balloons
- AI-assisted PCI
- Renal denervation

Peripheral Vascular Health

- Atherectomy systems
- Peripheral stents
- Peripheral balloons

Neuroscience

Pain Management

- Spinal cord stimulation
- Targeted drug delivery
- Balloon kyphoplasty
- Basivertebral nerve ablation
- Radiofrequency nerve ablation

Bladder and Bowel Solutions

- Sacral neuromodulation
- Tibial neuromodulation

Spinal and Orthopedic Surgery

- Pre-op planning
- Robotic guidance
- Navigation
- Cervical disc fusion
- SI joint fusion
- Artificial disc replacement

Ear, Nose, and Throat (ENT)

- Sinus navigation
- Decortication
- Balloon sinus dilation

Let's build for the next phase of outpatient care, together.

Whether you're setting direction, delivering care day to day, or preparing to grow, we stand alongside ASCs with a coordinated approach to outpatient care.

Connect with the Medtronic Empower ASC™ Growth Platform team to explore how our enterprise capabilities can align to your center's priorities and needs.
