

# Medtronic

## Healthcare Economics, Policy & Reimbursement (HEPR)

Medtronic offers resources, education, and training to help physicians, hospitals and coding professionals navigate reimbursement and coding for our spine and biologics products and therapies.

## Reimbursement Support Center (RSC)

The RSC is a call center that can provide you with information about spinal coding, coverage and reimbursement. You can reach us by email or web.

**Email:** [RS.CSTReimbursementSupport@medtronic.com](mailto:RS.CSTReimbursementSupport@medtronic.com)

**Web:** [Medtronic.com/SpineLine](https://Medtronic.com/SpineLine)

## SpineLine™ Reimbursement and Learning Series

The SpineLine™ website offers an abundance of coding and reimbursement information for hospitals and physicians. You can access billing and coding guides, CPT data sheets, prior authorization guidance, and many, many more resources to help demystify spinal coding and reimbursement.

We also offer a variety of free online webinars, covering topics on spinal coding, reimbursement, anatomy, and more. Certified coders can even earn free CEUs.

To access all of our resources and register for our online webinars you can visit [Medtronic.com/SpineLine](https://Medtronic.com/SpineLine)

## Healthcare Economics (HE)

For inquiries or information on reimbursement & coding; economic value evidence and translation, application, and/or generation of health economic evidence; health reform changes; coverage with payers; and/or general support for physicians and hospitals via education, information, and training.
