For Medicare and other payers which use a lab fee schedule, reimbursement for lab tests is the same regardless of whether the test was performed in the hospital outpatient setting or in a physician office.

[†] Recommended for the Heparin Dose Response test with the Medtronic HMS Plus hemostasis management system.

Hospital inpatient reimbursement: MS-DRG payment

- Inpatient billing for labs is typically accomplished through the charge master where the CPT codes above are linked to corresponding lab revenue codes for billing and reimbursed as part of the MS-DRG case rate.
- The MS-DRG payment is dependent upon the primary procedure.
