

## Coding and payment overview: Pacemaker therapy

### Commonly billed codes and associated 2023 Medicare rates

This document reflects commonly billed codes for pacemaker therapy and the associated 2023 Medicare national reimbursement rates. This is not an all-inclusive list.

The following information reflects the Medicare national allowable amount published by CMS and does not include Medicare payment reductions resulting from sequestration adjustments to the amount payable to the provider, as mandated by the Budget Control Act of 2011. The Medtronic Customer Economics and Reimbursement teams can provide site-specific information upon request.

#### Disclaimer

Medtronic provides this information for your convenience only. It does not constitute legal advice or a recommendation regarding clinical practice. Information provided is gathered from third-party sources and is subject to change without notice due to frequently changing laws, rules, and regulations. The provider has the responsibility to determine medical necessity and to submit appropriate codes and charges for care provided. Medtronic makes no guarantee that the use of this information will prevent differences of opinion or disputes with Medicare or other payers as to the correct form of billing or the amount that will be paid to providers of service. Please contact your Medicare contractor, other payers, reimbursement specialists, and/or legal counsel for interpretation of coding, coverage, and payment policies. This document provides assistance for FDA-approved or cleared indications. Where reimbursement is sought for use of a product that may be inconsistent with, or not expressly specified in, the FDA-cleared or approved labeling (e.g., instructions for use, operator’s manual, or package insert), consult with your billing advisors or payers on handling such billing issues. Some payers may have policies that make it inappropriate to submit claims for such items or related service.

#### Physician/Hospital Outpatient

Coding is based on specific procedures that are performed, and multiple procedure codes may be reported. This may result in multiple procedure payment reductions for physician payments. Hospital outpatient reimbursement is subject to various packaging rules, including Comprehensive APCs (C-APCs). Under C-APCs, only one payment is made for all procedures and supplies provided during the outpatient episode of care. Physician and hospital outpatient rates are effective through the 2023 calendar year.

CPT <sup>®1</sup> Code	Description	2023 Medicare National Unadjusted Physician Rate <sup>2</sup>	APC	2023 Medicare National Unadjusted APC Rate <sup>3</sup>
Generator insertion procedures - Transvenous				
33206	Insertion of new or replacement of permanent pacemaker with transvenous electrode(s); atrial	\$456	5223	\$10,329
33207	Insertion of new or replacement of permanent pacemaker with transvenous electrode(s); ventricular	\$479	5223	\$10,329
33208	Insertion of new or replacement of permanent pacemaker with transvenous electrode(s); atrial and ventricular	\$519	5223	\$10,329
Generator insertion procedures - Leadless				
33274 	Transcatheter insertion or replacement of permanent leadless pacemaker, right ventricular, including imaging guidance (e.g., fluoroscopy, venous ultrasound, ventriculography, femoral venography) and device evaluation (e.g., interrogation or programming), when performed	\$481	5194	\$17,178

 Medicare policy requires specific additional information on claims. See instructions [here](#).

CPT <sup>®1</sup> Code	Description	2023 Medicare National Unadjusted Physician Rate <sup>2</sup>	APC	2023 Medicare National Unadjusted APC Rate <sup>3</sup>
Lead insertion procedures				
33216	Insertion of a single transvenous electrode, permanent pacemaker or implantable defibrillator	\$374	5222	\$8,163
33217	Insertion of 2 transvenous electrodes, permanent pacemaker or implantable defibrillator	\$370	5222	\$8,163
Generator insertion procedures with existing leads				
33212	Insertion of pacemaker pulse generator only; with existing single lead	\$322	5222	\$8,163
33213	Insertion of pacemaker pulse generator only; with existing dual leads	\$337	5223	\$10,329
33221	Insertion of pacemaker pulse generator only; with existing multiple leads	\$361	5224	\$18,672
Upgrade single chamber to dual chamber				
33214	Upgrade of implanted pacemaker system, conversion of single chamber system to dual chamber system (includes removal of previously placed pulse generator, testing of existing lead, insertion of new lead, insertion of new pulse generator)	\$481	5223	\$10,329
Insertion or replacement of temporary pacing lead				
33210	Insertion or replacement of temporary transvenous single chamber cardiac electrode or pacemaker catheter (separate procedure)	\$161	5222	\$8,163
33211	Insertion or replacement of temporary transvenous dual chamber pacing electrodes (separate procedure)	\$167	5222	\$8,163
Generator-only change out procedures				
33227	Removal of permanent pacemaker pulse generator with replacement of pacemaker pulse generator; single lead system	\$340	5222	\$8,163
33228	Removal of permanent pacemaker pulse generator with replacement of pacemaker pulse generator; dual lead system	\$355	5223	\$10,329
Leadless removal procedure				
33275	Transcatheter removal of permanent leadless pacemaker, right ventricular, including imaging guidance (e.g., fluoroscopy, venous ultrasound, ventriculography, femoral venography), when performed	\$501	5183	\$2,979
Removal transvenous generator procedure				
33233	Removal of permanent pacemaker pulse generator only	\$235	5222	\$8,163
Removal transvenous lead procedures				
33234	Removal of transvenous pacemaker electrode(s); single lead system, atrial or ventricular	\$486	5221	\$3,351
33235	Removal of transvenous pacemaker electrode(s); dual lead system	\$639	5221	\$3,351
Reposition or repair transvenous leads				
33215	Repositioning of previously implanted transvenous pacemaker or implantable defibrillator (right atrial or right ventricular) electrode	\$311	5183	\$2,979
33218	Repair of single transvenous electrode, permanent pacemaker or implantable defibrillator	\$392	5221	\$3,351
33220	Repair of 2 transvenous electrodes for permanent pacemaker or implantable defibrillator	\$378	5221	\$3,351

CPT <sup>®1</sup> Code	Description	2023 Medicare National Unadjusted Physician Rate <sup>2</sup>	APC	2023 Medicare National Unadjusted APC Rate <sup>3</sup>
Pocket relocation				
33222	Relocation of skin pocket for pacemaker	\$345	5054	\$1,726
Epicardial lead procedures				
33202	Insertion of epicardial electrode(s); open incision (e.g., thoracotomy, median sternotomy, subxiphoid approach)	\$770	N/A	Inpatient only
33203	Insertion of epicardial electrode(s); endoscopic approach (e.g., thoracoscopy, pericardioscopy)	\$807	N/A	Inpatient only
33236	Removal of permanent epicardial pacemaker and electrodes by thoracotomy; single lead system, atrial or ventricular	\$783	N/A	Inpatient only
33237	Removal of permanent epicardial pacemaker and electrodes by thoracotomy; dual lead system	\$840	N/A	Inpatient only
In person interrogation and programming evaluations				
93279	Programming device evaluation (in person) with iterative adjustment of the implantable device to test the function of the device and select optimal permanent programmed values with analysis, review, and report by a physician or other qualified healthcare professional; single lead pacemaker system or leadless pacemaker system in one cardiac	\$69 \$31 (26) \$38 (TC)	5741	\$35
93280	Programming device evaluation (in person) with iterative adjustment of the implantable device to test the function of the device and select optimal permanent programmed values with analysis, review, and report by a physician or other qualified healthcare professional; dual lead pacemaker system	\$81 \$37 (26) \$44 (TC)	5741	\$35
93281	Programming device evaluation (in person) with iterative adjustment of the implantable device to test the function of the device and select optimal permanent programmed values with analysis, review, and report by a physician or other qualified healthcare professional; multiple lead pacemaker system	\$86 \$42 (26) \$44 (TC)	5741	\$35
93288	Interrogation device evaluation (in person) with analysis, review, and report by a physician or other qualified healthcare professional, includes connection, recording and disconnection per patient encounter; single, dual, or multiple lead pacemaker system, or leadless pacemaker system	\$57 \$20 (26) \$37 (TC)	5741	\$35
Remote interrogation evaluations				
93294	Interrogation device evaluation(s) (remote), up to 90 days; single, dual, or multiple lead pacemaker system, or leadless pacemaker system with interim analysis, review(s), and report(s) by a physician or other qualified healthcare professional	\$30	N/A	Physician Only
93296	Interrogation device evaluation(s) (remote), up to 90 days; single, dual, or multiple lead pacemaker system, leadless pacemaker system, or implantable defibrillator system, remote data acquisition(s), receipt of transmissions and technician review, technical support, and distribution of results	\$23	5741	\$35

## Inpatient Coding

### ICD-10-PCS

Inpatient hospital ICD-10-PCS codes do not include system implantation codes. Each specific device-related procedure must be individually coded. The following ICD-10-PCS codes describe commonly performed pacemaker procedures. This is not an all-inclusive list. These codes are only used by hospitals for reporting inpatient services.

ICD-10-PCS	Description
Generator insertion procedures - Transvenous	
0JH606Z or 0JH605Z or 0JH604Z	Insertion of pacemaker, dual chamber into chest subcutaneous tissue and fascia, open approach
	Insertion of pacemaker, single chamber rate responsive into chest subcutaneous tissue and fascia, open approach
	Insertion of pacemaker, single chamber into chest subcutaneous tissue and fascia, open approach
Generator insertion procedures - Leadless	
02HK3NZ 	Insertion of intracardiac pacemaker into right ventricle, percutaneous approach
	 Medicare policy requires specific additional information on claims. See instructions <a href="#">here</a> .
Lead insertion procedures	
02H63JZ and/or 02HK3JZ	Insertion of pacemaker lead into right atrium, percutaneous approach
	Insertion of pacemaker lead into right ventricle, percutaneous approach
Lead removal	
02PA3MZ	Removal of cardiac lead from heart, percutaneous approach
Generator removal	
0JPT0PZ	Removal of cardiac rhythm-related device from trunk subcutaneous tissue and fascia, open approach
0JWT0PZ	Revision of cardiac rhythm-related device in trunk subcutaneous tissue and fascia, open approach
Noninvasive programmed stimulation	
4B02XSZ	Measurement of cardiac pacemaker, external approach

## Inpatient Reimbursement

Medicare reimbursement for inpatient hospital services is based on a classification system known as Medicare Severity Diagnosis Related Groups (MS-DRGs). MS-DRG assignment is determined by patient diagnoses and procedures. Only one MS-DRG is assigned per hospital admission, and one payment is made for all procedures and supplies related to that inpatient stay. MS-DRG assignment may be affected when one or more secondary diagnoses are included in the Major Complication or Comorbidity (MCC) or Complication or Comorbidity (CC) lists, which are maintained by CMS.

MS-DRG	Description	FY 2023 Medicare National Unadjusted Rate <sup>4</sup>
Leadless		
228	Other cardiothoracic procedures w/MCC	\$33,806
229	Other cardiothoracic procedures w/o MCC	\$22,643
Transvenous		
242	Permanent cardiac pacemaker implant w/MCC	\$23,826
243	Permanent cardiac pacemaker implant w/CC	\$16,079
244	Permanent cardiac pacemaker implant w/o CC/MCC	\$13,041
258	Cardiac pacemaker device replacement w/MCC	\$19,558
259	Cardiac pacemaker device replacement w/o MCC	\$13,679
260	Cardiac pacemaker revision except device replacement w/MCC	\$23,999
261	Cardiac pacemaker revision except device replacement w/CC	\$13,107
262	Cardiac pacemaker revision except device replacement w/o CC/MCC	\$11,502

### Key

MCC – Major Complication or Comorbidity

CC – Complication or Comorbidity

Coding, coverage, and reimbursement information is available at: [medtronic.com/crhfreimbursement](https://www.medtronic.com/crhfreimbursement). For questions or for more information, please contact Reimbursement Customer Support at 1-866-877-4102 (8 a.m. to 5 p.m. CT, Monday- Friday) or [rs.healthcareconomics@medtronic.com](mailto:rs.healthcareconomics@medtronic.com).

## Frequently asked questions

### Q1: Does a pacemaker have to be at end of life (ERI) for the changeout procedure to be covered by Medicare?

There is no policy from Medicare on device changeout coverage. Instead, coverage will be based on documented medical necessity.

### Q2: What diagnosis code is reported for routine generator changeouts?

For routine pacemaker generator changeouts, ICD-10-CM diagnosis code Z45.010 would be applicable.<sup>5</sup>

### Q3: What is the KX modifier and why is it used?

The KX modifier indicates criteria from Medicare policy have been met. Medicare requires the KX modifier on transvenous pacemaker implant procedures.

### Q4: Do all pacemaker implants require the KX modifier?

No, the KX modifier is required for transvenous pacemaker implants only. It is not required for leadless pacemaker implants.
