## Jaimie Manlucu, M.D.

Western University  
London, Ontario, Canada

**Jaimie Manlucu, M.D., FRCPC** is an Associate Professor of Medicine at Western University and the Director of the Cardiac Implantable Electronic Devices at the London Health Sciences Centre (University Hospital) in London, Ontario.

She is a medical graduate of McMaster University and completed her Internal Medicine and General Cardiology training at Western University before going on to subspecialty training in Advanced Cardiac Electrophysiology at the Ottawa Heart Institute and Brigham and Women's Hospital (Harvard University, Boston, MA).

She joined the London Heart Rhythm Program in 2012 and has a special interest in implantable cardiac devices, laser lead extraction and complex catheter ablation. Her research interests include cardiac resynchronization therapy, the management of atrial and ventricular arrhythmias, and the prevention of sudden death.

### Education

McMaster University, Hamilton, Ontario, Canada, M.D.

### Fellowship

Brigham and Women's Hospital, Boston, MA - Cardiology, Advanced Adult Cardiac Electrophysiology

Western University, London, Ontario, CAN - Electrophysiology

Western University, London, Ontario, CAN - Cardiology
