

Medtronic

**Detect early.
Treat early.**

[See how](#)

An urgent need for bold action

1 in 4
adults

will be affected
by GI cancers and
chronic diseases
in their lifetime.¹

Impactful

Colorectal cancer
is the second
deadliest cancer
after lung cancer.¹

Prevalent

There are 20 million
hospitalizations for
digestive diseases
in the U.S. each year.¹

Progressive

GI cancers and chronic
diseases are difficult to
detect, but treatable if
caught early.¹

Innovative solutions in GI screening, diagnosis, and therapy

Through our disease-awareness campaigns, patients may seek screening earlier. When they do, our broad portfolio of minimally invasive GI solutions may be able to detect conditions – and treat them – early. By focusing on care across the continuum, we help improve outcomes for those with chronic GI diseases and cancers.

A comprehensive portfolio

Esophageal and gastric products

Cytosponge™*
cell collection device

Endoflip™
impedance
planimetry system

ManoScan™
ESO high resolution
manometry system

Bravo™
calibration-free
reflux testing
system

SmartPill™
motility testing
system

Esoflip™
dilation catheter

Eleview®*
submucosal
injectable
composition

Barrx™
radiofrequency
ablation system

ProdiGI™
traction wire, traction magnet, and
multifunctional electro-surgical knife

Under FDA De Novo review.
Not for sale in the U.S.

EUS and ablation products

SharkCore™
FNB needle

Beacon™
FNF pre-loaded needle

Beacon™
FNA needle

Emprint™ SX
ablation platform

Colorectal products

PillCam™
COLON 2 system

GI Genius™
intelligent endoscopy module

ManoScan™
AR high resolution
manometry system

HET™
bipolar system

Eleview®*
submucosal
injectable
composition

ProdiGI™
traction wire, traction magnet, and
multifunctional electro-surgical knife

Under FDA De Novo review.
Not for sale in the U.S.

GI bleeding and chronic disease products

PillCam™
SB3 capsule

PillCam™
patency capsule

PillCam™
Crohn's capsule

Nexpowder™*
endoscopic hemostasis system

Barrx™
SB RFA endoscopic catheter

Transform esophageal care

Esophageal and gastric products

EUS and ablation products

Colorectal products

GI bleeding and chronic disease products

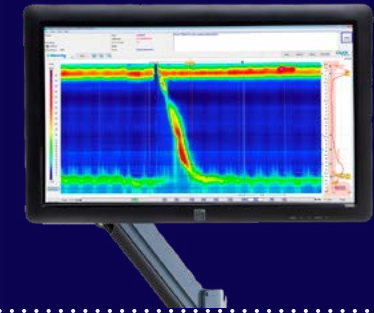

Cytosponge™*
cell collection device

Endoflip™
impedance planimetry system

ManoScan™
ESO high resolution manometry system

Bravo™
calibration-free reflux testing system

SmartPill™
motility testing system

Esoflip™
dilation catheter

Eleview®*
submucosal injectable composition

Barrx™
radiofrequency ablation system

ProdiGI™
traction wire, traction magnet, and
multifunctional electrosurgical knife

Under FDA De Novo review.
Not for sale in the U.S.

SharkCore™
FNB needle

Beacon™
FNF pre-loaded needle

Beacon™
FNA needle

Emprint™ SX
ablation platform

Esophageal and gastric products

EUS and ablation products

Colorectal products

GI bleeding and chronic disease products

PillCam™
COLON 2 capsule

GI Genius™
intelligent endoscopy module

ManoScan™
AR high resolution manometry system

HET™
bipolar system

Eleview®*
submucosal injectable composition

ProdiGI™
traction wire, traction magnet, and
multifunctional electrocautery knife

Under FDA De Novo review.
Not for sale in the U.S.

These images do not represent all components of the system.

PillCam™
SB3 capsule

PillCam™
patency capsule

PillCam™
Crohn's capsule

Nexpowder™*
endoscopic hemostasis system

510k pending. Not cleared by
FDA and not for sale in the U.S.

Barrx™
SB RFA endoscopic catheter

Service that goes beyond the solution

At Medtronic, we want to help you strengthen your business and provide compassionate patient care with confidence. That requires dedication, not just a device.

We'll collaborate with you to eliminate barriers and expand your ability to deliver early detection and treatment through:

Reimbursement support
to help you work effectively and efficiently

Medical science data resources
to bring you reliable, valuable information

Clinical education
to help keep you current on the latest evidence

Product support
to help you when you need it

Disease-awareness materials
to help raise awareness of the impact of GI diseases in the U.S.
