

Medical education

In-office sinus surgery visiting clinician program (VCP)

Course Description

These one-day events allow the visiting clinician access to an experienced practitioner who successfully performs in-office procedures utilizing Medtronic products and solutions. These courses include observation and discussion of cases, office operation, anesthesia protocol and other tips and pearls related to in-office procedures.

The visiting clinician will not have privileges and cannot participate in activities beyond observation, discussion and equipment training.

Objectives

Upon completion of this program, attendees will be able to incorporate new knowledge related to patient selection, anesthesia protocol and patient management.

Agenda

Curriculum may include:

- Patient selection
- Pre-procedure patient management
- Intra-procedure clinical application
- Post-procedure expectations
- Surgeon post-procedure expectations
- Patient education materials

Target Audience

This program is intended for:

- Surgeons specializing in Otolaryngology or Rhinology who are interested in performing NuVent™ cases and other procedures in the office
- Allied health professionals associated with surgeons attending the VCP

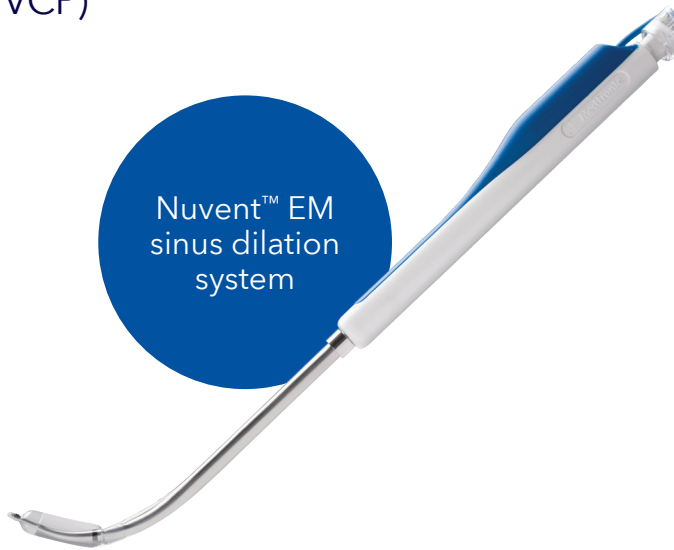

Criteria for Attendance

This course is intended for clinicians who:

- Currently perform or are wanting to perform surgical procedures in their medical office
- Use or are planning to use the navigated NuVent™ EM Balloon Sinus Dilation System, Medtronic image guidance systems, or Medtronic powered handpieces and blades

Registration

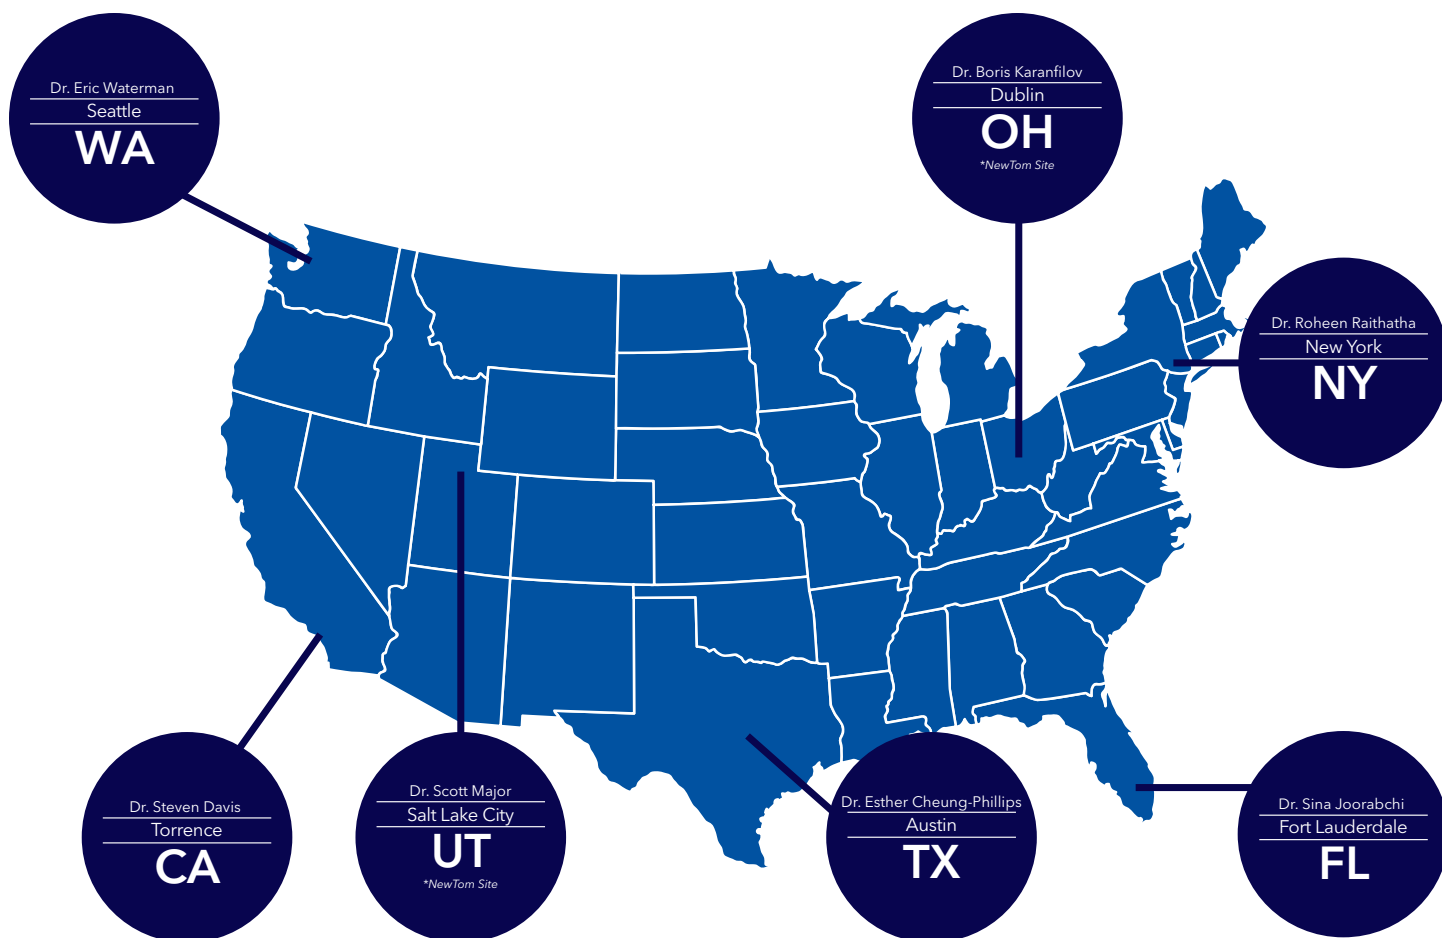

To register for this program, please contact your Medtronic representative.
