

Residents and Fellows Programs

Future Spine Leaders National Cadaveric Program

Transform patient care with our ever-evolving knowledge-sharing platform for spine, cranial procedures, and advanced technologies.

The dates and locations are below:

PGY3 thru Fellows - July 28-29, Minneapolis, MN

PGY3 thru Fellows - September 29-30, Lafayette, CO

PGY3 thru Fellows - Jan 12-13, Lafayette, CO

Advanced Fellows - April 26-27, location TBD

Description of the program:

This program will be offered quarterly and is specifically designed for PGY3 residents through fellows as they transition from clinical training into their practices. The program, presented by spine surgery leaders, is a blend of science, technology, and business-related topics that will give residents and fellows the knowledge they'll need during this exciting time in their careers. The target audience for this program is PGY3 residents through fellows for the first three programs. The fourth program is an advanced offering targeted toward fellows specifically. All four programs are targeted to orthopaedic and neurosurgeons specializing in spine surgery.
