FlexCath Contour™ Steerable Sheath - 12 Fr

## Steering therapy with confidence

Intentionally redesigned from the FlexCath Advance™ steerable sheath and for use with the Arctic Front™ family of cardiac cryoablation catheters, FlexCath Contour 12 Fr is a bi-directional, steerable sheath built to support each procedure with confidence and control.

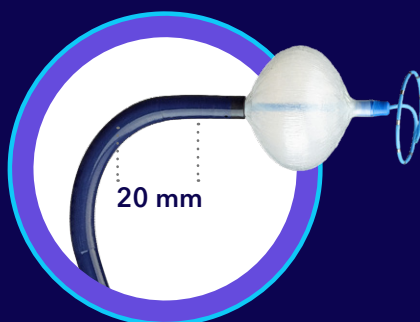

### Enhanced maneuverability

Designed to maintain shape and performance throughout the procedure with increased bi-directional deflection and a redesigned shaft.<sup>1</sup>

### 2 tip lengths

enable options for greater access to the RIPV.<sup>1</sup>

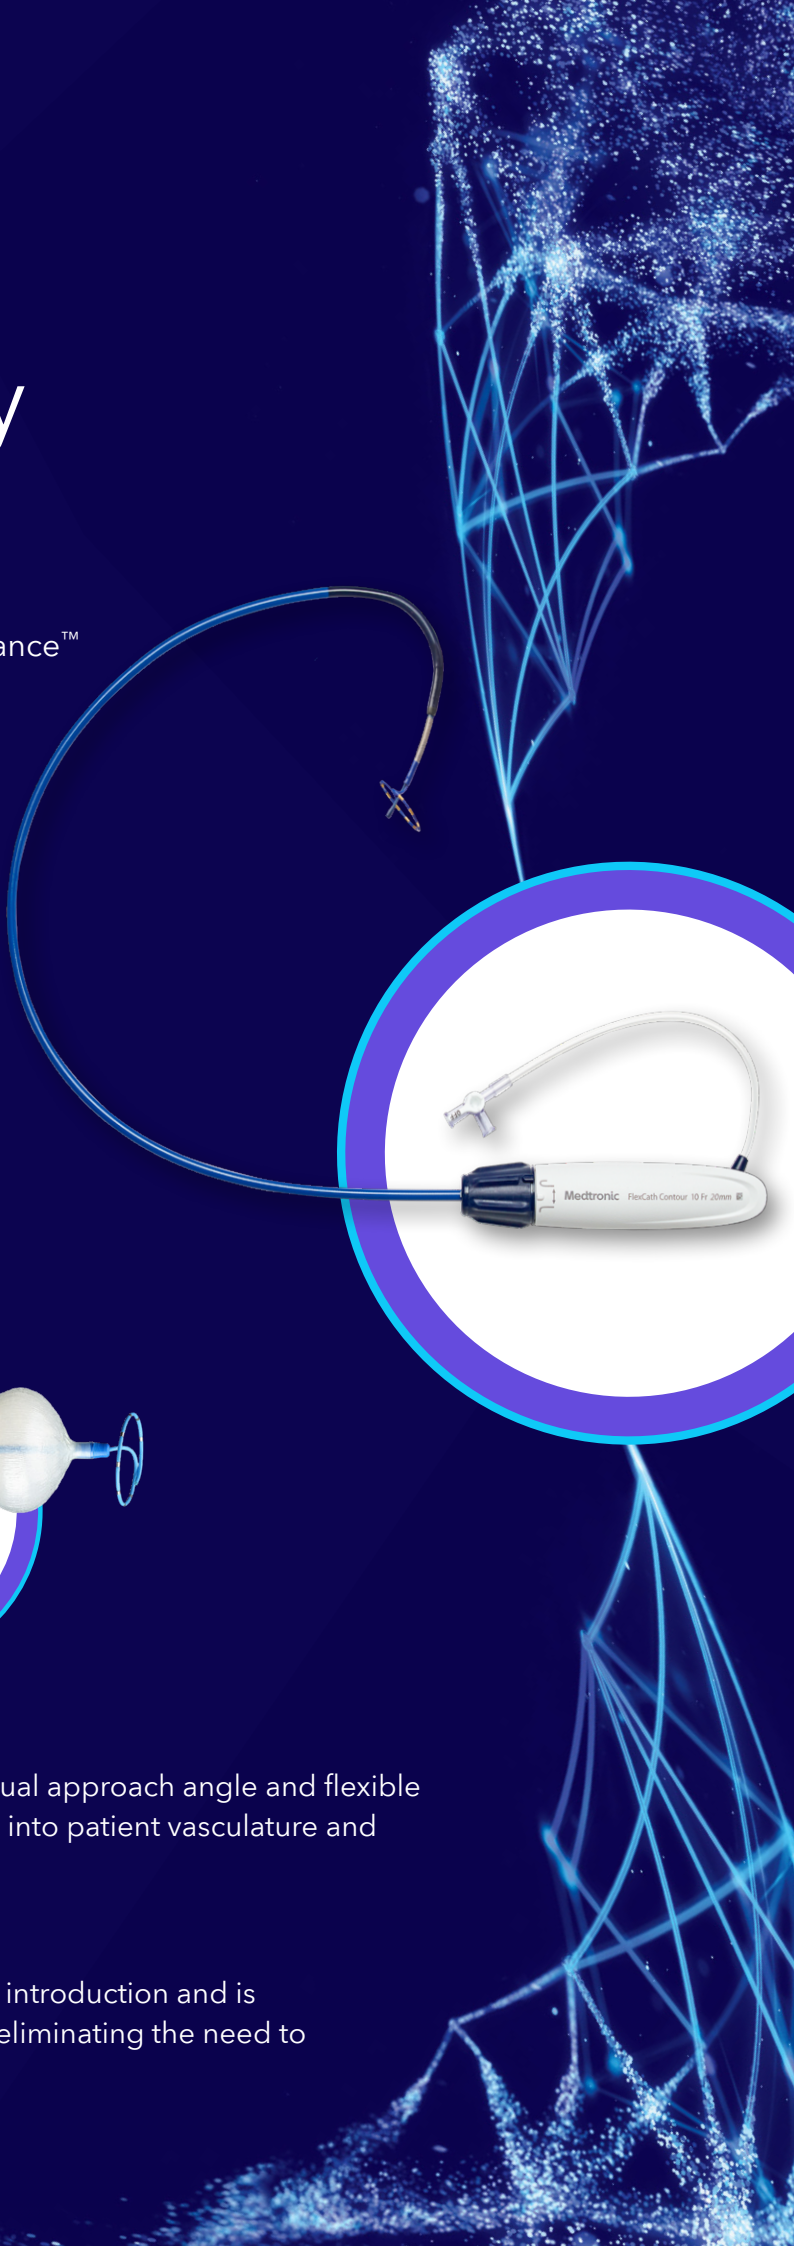

### Refined transitions

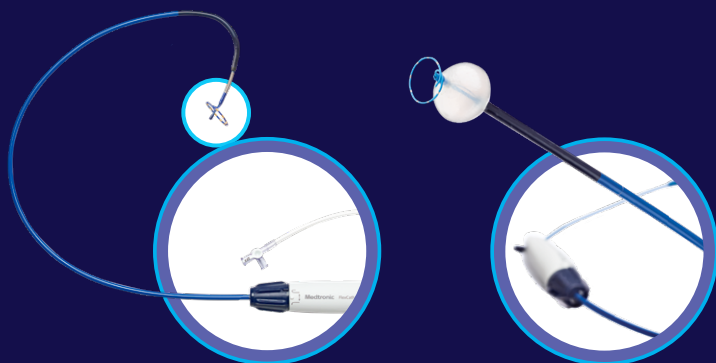

The distal tip has been redesigned with a more gradual approach angle and flexible material to enable a smooth sheath-dilator transition into patient vasculature and across the septum.<sup>1</sup>

### Zero exchange workflow<sup>1</sup>

FlexCath Contour is designed for transseptal needle introduction and is compatible with the Medtronic transseptal solution, eliminating the need to exchange between sheaths, guidewires, or needles.
