

Medtronic

FlexCath Cross™ Transseptal Solution

zero  
exchange  
workflow

### Efficiency

Zero exchange procedure

### Zero wire and needle exchanges

Integrated needle/dilator design removes the need for needle and guidewire exchanges.

### Zero sheath exchanges

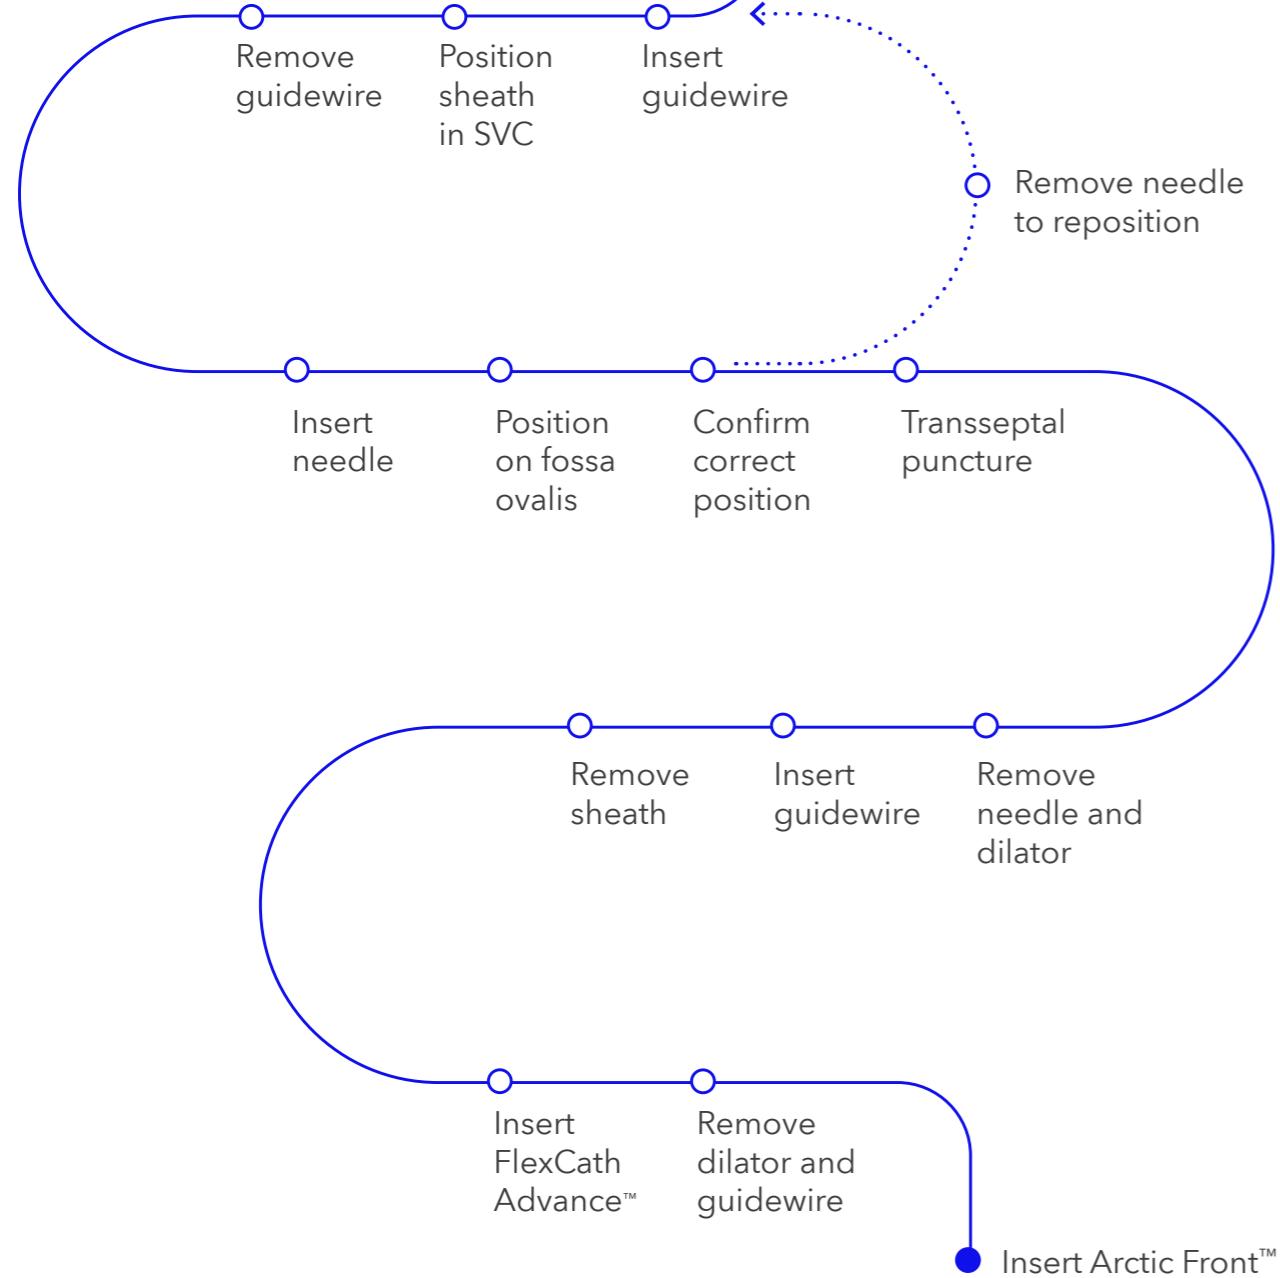

Dilators compatible with leading industry sheaths eliminate the need for separate transseptal and therapeutic sheaths.

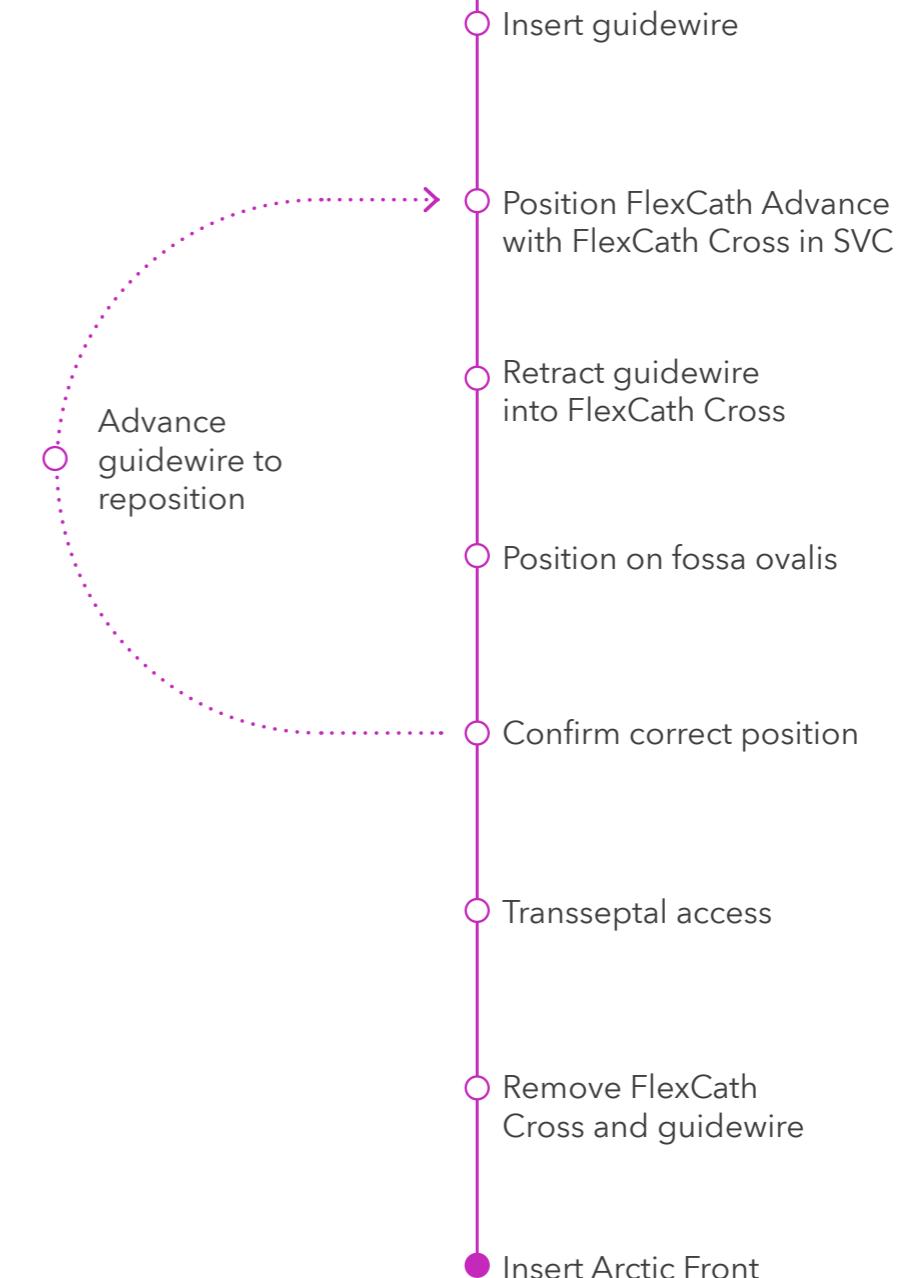

# Efficiency

## Workflow

### Traditional transseptal access workflow

### FlexCath Cross workflow with FlexCath Advance

Compatible with industry-leading introducers

Medtronic FlexCath Advance  
Steerable Sheath

VIZIGO® Bi-directional  
Guiding Sheath

Merit Medical HeartSpan®<sup>++</sup>  
Sheath Introducer

Abbott Swartz™ Braided  
Transseptal Guiding  
Introducer, SL1

## Versatile

# Versatility for your procedures

Choose the FlexCath Cross model which fits with your existing sheath preferences for your left-heart procedures.

FlexCath Cross is the only transseptal access system on the market **cleared for both mechanical and RF crossing**.

**Controlled**  
Cross with control

The FlexCath Cross needle  
only deploys when activated,  
designed for ease of control  
during transseptal puncture.

## Ordering info

## Competitive matrix – transseptal needles

Product name	Compatible sheath	Order number
FlexCath Cross – AG 61 cm	Agilis NxT – 61 cm	900300
