

Medtronic

Offer your patient a positive experience

The LigaSure™ Exact dissector – indicated for breast procedures

Offer her a faster return to life^{1,2,†}

The LigaSure™ Exact dissector is designed for precise tissue dissection—and to provide the confidence you need to accurately seal and dissect critical structures throughout the procedure.

When used in breast procedures, LigaSure™ technology:

- Reduces the anesthesia time^{1,2,†}
- Supports less operative time^{1,2}
- Offers less drainage volume²⁻⁴
- Enables fewer drainage days¹⁻⁴
 - May lead to lower risk of infection¹⁻⁴
 - Can lead to shorter hospitalization^{3,4}

// *This is a meaningful device
that can make a huge
difference for the patient.*

– Actual patient

Your patients rely on you
to deliver positive outcomes
that make a substantial
difference in their lives.

You can rely on us
to deliver best-in-class
technology that supports your
skills and helps you achieve
those results.

Offer her the trusted **LigaSure™** technology

Detailed precision that's intended to help improve patient outcomes.

Built on reliable LigaSure™ technology, the LigaSure™ exact dissector provides a more effective blunt dissection than the Harmonic Focus™* + due to its symmetric jaw and ability to apply equal force.^{5,‡} Plus, it delivers:

- Excellent visualization^{5,§}
- Simple and intuitive sealing and cutting^Ω
- Ability to work in tight spaces

As a part of our
Valleylab™ energy
portfolio, it's also part
of our commitment to
helping you advance
patient care.

Learn more about the LigaSure™ Exact dissector – and how to bring greater precision^{5,‡} to your procedures by visiting [our website](#).
